---

**Objective**

- To obtain a position in the field of Information Technology where I can apply and enhance my skills in software development

**Summary**

- Ability to effectively communicate both in written and oral as well as active listening.
- Ability to collaborate and work well within a group and individually
- Ability to adapt to fast paced and changing work environment with passion for technology
- Ability to manage time effectively, prioritize tasks and meet deadlines
- Ability to demonstrate strong analytical, problem solving, and critical thinking skills
- Technical support experience

**Technical Skills**

- Proficient in programming languages such as C++, Java, Python, VB.NET
- Experience in database management systems like Microsoft SQL and MySQL
- Knowledgeable in web development using CSS, HTML, JavaScript, and PHP
- Experience in version control, particularly with GitHub
- Familiarity with operating systems such as Windows and macOS
- Experience in maintaining Windows computers, troubleshooting in a Windows operating system, activating operating systems, and Microsoft Office troubleshooting.

**Experience**

OJT Training, Palace Computer Enterprises

Ilagan Subdivision, Calicanto, Batangas City

From February 22, 2023 to May 31, 2023

- Provided technical support in an admin office at Palace Computer Enterprises, installing applications such as Microsoft Office, AutoCAD, and other software for use by admin employees.
- Delivered and set up desktops for clients, ensuring they were ready for immediate use.
- Assisted clients with various technical issues, including organizing and creating UTP cables with RJ45 connectors, ensuring proper cable organization and secure attachment of connectors, enhancing my skills in cable management and installation.

**Projects**

- Barangay Management System
  - Developed and designed user interface that are both user-friendly and aesthetically appealing
  - Utilized HTML, CSS and JavaScript technologies
- E-Commerce Website
  - Developed and designed a fully functional e-Commerce site with admin panel
  - Conducted compatibility testing across browsers and devices
  - Utilized technologies such as HTML, CSS, JavaScript, and PHP
- POS System
  - Developed a Point of Sale (POS) system as a subject's final project
  - Calculates customer bills and includes a discount feature for seniors and PWDs
  - Incorporates receipt printing functionality
  - Technology used: VB.Net
- Reporting Android Application
  - Developed a fully functional Android app for reporting vehicle incidents
  - Created an admin website to view and manage reported incidents
  - Seamless integration for efficient reporting and monitoring
  - Utilized technologies such as HTML, CSS, Java, JavaScript, and PHP
