## Objective

To secure a position in Software Development, Software QA, IT Support, System Admin, or Data Analysis where I can leverage my expertise in software engineering, quality assurance, technical support, system administration, and data management to drive organizational success and innovation.

## Summary

- Effective communication skills (written and oral) and active listening.
- Strong team collaboration and individual work capabilities.
- Adaptable to fast-paced and changing work environments with a passion for technology.
- Excellent time management, task prioritization, and deadline adherence.
- Ability to demonstrate strong analytical, problem solving, and critical thinking skills.
- Technical support experience.

## Technical Skills

- **Programming Languages:** Proficient in JavaScript, Python, PHP
- **Database Management:** Experienced with Microsoft SQL, MySQL
- **Web Development:** Skilled in CSS, HTML, JavaScript, PHP, CodeIgniter 4, Laravel Framework.
- **Version Control:** Proficient with Git.
- **MVC Architecture:** Applied using CodeIgniter 2 in personal projects.
- **Operating Systems:** Familiar with Windows, macOS.
- **Technical Support:** Maintaining and troubleshooting Windows systems, Microsoft Office.
- **Basic Networking:** Understanding of LAN/WAN, VPN, IP Addressing

## Software Tools Used

- **IDE Tools:** Visual Studio code & Visual Studio
- **Communication Tools:** Trello, Microsoft Teams, Zoom, & google meet
- **Remote Support Tools:** TeamViewer & AnyDesk
- **Office Tools:** MS Office.
- **Cloud Services:** Google Drive, iCloud.

## Experience

Internship Training, Palace Computer Enterprises

Ilagan Subdivision, Calicanto, Batangas City

From February 22, 2023 to May 31, 2023

- Provided technical support, installing applications like Microsoft Office and AutoCAD.
- Delivered and set up desktops for clients, ensuring readiness for immediate use.
- Utilized AnyDesk and TeamViewer for remote assistance and troubleshooting.
- Organized and created UTP cables with RJ45 connectors, enhancing cable management skills.

## Projects

- **E-Commerce Website**
  - Developed and designed a fully functional e-commerce site with an admin panel. Conducted compatibility testing across browsers and devices using HTML, CSS, JavaScript, and PHP.
- **Crud Operation**
  - Developed CRUD operations, implemented MVC architecture using HTML, Bootstrap 5, and CodeIgniter 4 Framework.
- **Payroll System**
  - Designed and implemented a comprehensive payroll system, developed a module for accurate payslip calculations using HTML, CSS, Bootstrap, JavaScript, PHP, and CodeIgniter 4 Framework.
- **Reporting Android Application**
  - Developed an Android app for reporting vehicle incidents with an admin website for managing reports, using HTML, CSS, Java, JavaScript, and PHP. Applied SDLC using Agile methodologies throughout the project.

## Education

**University of Batangas, 2019-2023**

Bachelor of Science in Information Technology

## Certificates of Completion

- CSS, Bootstrap, JavaScript, PHP Full Stack Course, Udemy, March 21, 2024
- Python Development & Data Science: Variable and Data Types, Udemy, Nov. 22, 2023
- 19th Youth Congress on Information Technology: Career Development, October 13, 2021
